Moose Jaw, Saskatchewan

LOCATED on the main line of the C. P. R., having direct connection with St. Paul by the Soo line, Moose Jaw is the most important railway centre in the Province of Saskatchewan. The town numbers among its many advantages, three chartered banks, good hotels, telephone and electric light systems, and six miles of water mains and sewerage. Here is also located the C.P.R. Stock Yards, built at a cost of $30,000, the only watering place for stock from the ranches to Winnipeg. ¶ Moose Jaw is the centre of a rich farming and ranching district. The soil is highly productive, as proof of which 2,000,000 bushels of wheat was harvested in 1905 within a radius of 20 miles of Moose Jaw. The average yield per acre was 30 bushels. Oats yielded 85 bushels per acre. ¶ The splendid climate has much to do with making this district one most desirable in which to live, the Chinook winds from the west being felt as far east as Moose Jaw.
